Expt. 11 Simulate Static routing configuration using CISO Packet Tracer.

Aim:

To simulate a Static routing configuration using CISO packet.

Procedure:

* Open CISO packet tracer and create the given network topology.
* Connect 3 routers and PC's using suitable Cable.
* Configure IP address for router and PCs.
* Enable all router interfaces using no shutdown
* Configure Static router on router 0, Router 1, and router 2 using IP mobile.
* Set main and backup routes using diff administrative distance.
* Ping a Static routing is Sucessfully Configured and verified.

Result:

Thus Static routing configuration was successfully configured using CISCO packet tracer
